Anguilla*

We believe every project has a soul to communicate.

We bring our own knowledgeable team members to the table along with a network of designers, engineers, suppliers, contractors and specialists with proven track records in the region and beyond.

It is with this comprehensive and flexible set of skills and resources that we enhance the project's upside performance and mitigate overall risks for our clients.

We value the opportunity we have to do what we do. To have an established company that contributes to the making of our clients vision and needs. From that value comes hard work, accessibility and effectiveness.

Our Clients must respond to emerging trends, and ever-shifting market conditions. They trust our advice.

We blend diverse expertise to facilitate projects and mitigate risk. Serving a wide range of industries in Puerto Rico and the Caribbean.

As a general contractor we are responsible for the

overall coordination of a project, we want you to feel confident and certain your project is in the right hands.

Our project delivery approach is one that integrates people, business and practices in a collaborative way.

When you come to us with a project vision, we tailor our capabilities to meet your specific needs. There is nothing we can't build when we work together.

It is our clients' final impression that represents not just who we are as a company, but who we are as individuals.

Our team is determined and persistently finds creative solutions in challenging environments, while building value for all.

Paint and Wall Covering

Sometimes a new coat of paint just isn't enough to freshen up a space. From design consultation to color selection, we will guide you through your entire project.

Maintenance Services

Often, before a professional commercial painting contractor can begin work, construction and repair is required. From initial specifications to project management, small customer work orders to complete interior and exterior renovations

Roofing and Waterproofing

We install plenty of square meters of waterproofing, roofing and insulation systems across the Caribbean, while always focusing on sustainable development.

Gypsum Board Installations

Magnificent gypsum solutions which have long been recognized for contributing to the sustainability of commercial and residential buildings.

Acoustical Ceiling Installations

Sound panels are a great solution for noise control for all sorts of applications. The raw acoustical panels can be wrapped with acoustically transparent fabric to create attractive wall treatments that absorb excessive amounts of sound.

Floor Installations

Tile, ceramic, marble and resilient floor installations, offering a wide and impressive range of colors, textures and finishes, you can create the looks that are unique and guaranteed to last for many, many years to come.

Demolition and Construction

We have a strong company policy that safety comes first; all personnel adhere to all safety regulations. We work hard to ensure that all safety rules and regulations are followed to the last detail.

Waste Disposal

Lorem ipsum dolor sit amet, consectetur adipiscing elit. Praesent id feugiat enim, turpis in, ullamcorper enim. Suspendisse varius convallis venenat.

Customer Satisfaction

You'll always have the peace of mind that Paradox has highly skilled and well-trained personnel to provide the quality and care that our customers demand.
